

ANNOUNCING!

A new service to improve your homes air quality

Do you have a musty mildew odor
in your basement or other room?

Have you had a flood?

Skunk or wildlife odors?

Formaldehyde odors?

We now offer a safe and cost effective Odor Remover Service. All the products we use are made from an all natural mineral. The products are non-toxic, non-hazardous, non-caustic, and biodegradable. They can safely be used around children and pets.

Our products are odor free. Many of the odor products on the market today act merely as a masking agent. This means they add chemicals to the air to cover up odors and actually increase the level of indoor pollutants in the process. Our products truly eliminate odors and clean the air by absorbing and neutralizing odors.

We can safely remove odors from basements, homes, furniture, lawns, flooring including concrete, cars, boats, and RV's. **Contact us today to find out more!**
