

FLOOD ODOR REMOVER KIT FROM: EARTH CARE PRODUCTS

ODOR REMOVER

ALL EARTH CARE PRODUCT's uses a blend of natural minerals in a proprietary process to attract and remove all types of odors. The Flood Odor Remover Kit is ideal for removing odors that have resulted from structures that have been flooded from Hurricanes, Tornados or just heavy rains. Its content is non-flammable, non-toxic, safe around children, pets, and mother earth. It is easy to use, and each kit lasts an average of 3 months, & contains no chemicals, toxins or fragrances. Earth Care does not mask odors it removes them. The kit consists of 1 bucket of odor remover granules that removes odor quickly and 5 odor remover bags that keeps odors removed for 3 three months. A kit covers 900 square feet.

ACTION TO TAKE FOR PREVIOUSLY FLOODED AREAS:

- After area has dried
- Spread granules from bucket over the affected area, handles up to 900 square feet.
- Remove clear plastic wrap from the 5 BAGs and place throughout the 900 square foot area
- Leave granules down inside for 48 hours, sweep or vacuum up, or granules can be left down indefinitely in crawl spaces, on the ground or outside

Odors will be permanently eliminated in 1-48 hours. In areas where moisture or other odor sources cannot be kept out then the bags can be changed out every three months and the area will be kept odor free indefinitely. Can be safely disposed of in trash container. Product is all natural, safe, non-toxic and safe for planet Earth.

Granules will not damage plants, landscapes, animals or humans.
