

Directions to Eliminate Odors from your Boat or Yacht:

- Hang one bag in each bilge compartment, the head, the galley, and each cabin. Some air circulation such as an open hatch is needed. Do not put bag directly in standing water or direct sunlight.
- All odors are typically eliminated in 24 hours. The bags will continue to eliminate new odors for up to 3 months
- Sprinkle granules on all upholstery and carpet. Brush granules into carpet. Leave down 24 hours and vacuum. All odors will be completely eliminated.

Directions to Eliminate Musty Mildew Odors from Previously Flooded Areas:

- Hang 2 bags in each room with odors. Bag will continue to eliminate new odors for up to 3 months.
- In addition to the bags sprinkle granules on furniture, floor and carpet (brush into carpet), leave down 24 hours and sweep or vacuum. Odors will be completely eliminated.
- Clear The Air granules can also be sprinkled outside on concrete, decks, lawns and shrubbery to remove musty odors. It is not necessary to remove from lawns and shrubbery as Clear The Air will act as a natural time release nitrogen fertilizer.

Directions to Eliminate Locker Room Odors:

- Hang 1 bag for every 50-100 square feet in gym. Odors will be eliminated in 24 hours.
- Bag will continue to eliminate odors for up to 3 months.
- Hang an additional bag in known problem lockers

Clear The Air Odor Eliminator for Lawn • Clear The Air Odor Eliminator for Carpet and Furniture • Clear The Air Odor Eliminator for Cat Urine • Economy Size Bucket

How Earth Care Products Work:

Earth Care Products can be used to eliminate odors by simply hanging a bag near the odor, or by sprinkling granules over or near the soiled areas. Earth Care does not have to come into contact with the odor producer; it will pull the odors from the entire room. Earth Care Products are negatively charged and odiferous gasses ride on positively charged particles. Because of this negative and positive attraction Earth Care draws in odors like a powerful magnet. The odors are adsorbed and neutralized without any cover ups or fragrances. The molecular structure of Earth Care consists of billions of microscopic pores, which gives it a large surface area (exceeding the size of a football field). This enables Earth Care to adsorb phenomenal amounts of odors. Earth Care does not cover up odors it literally clears the air, leaving the air fresh and clean.

Why Earth Care is Safe:

Earth Care is made from a blend of all natural minerals, and uses a proprietary process. It is non toxic, non hazardous, non-caustic, and biodegradable. It can safely be used around pets and children. It is safe to sprinkle in your pet's cage because it will not hurt your pet even if eaten. It can be applied directly to your pets fur, this is excellent if your pet has encountered a skunk, or to get rid of the "doggie" smell.

Many of the odor and pollution control products on the market today act merely as masking agents. This means they add chemicals to the air to cover up odors and actually increase the level of indoor pollutants in the process. Earth Care on the other hand truly eliminates odors and cleans the air by adsorbing and neutralizing odors. Earth Care Products are especially beneficial to those that suffer from chemical sensitivity which can be aggravated by fragrances.

Earth Care is safe for Planet Earth. To dispose of Earth Care simply add to your soil, it is an excellent nitrogen soil amendment.

General Instructions: It is important to use the recommended quantities of Clear The Air Odor Eliminator. The more product you use the faster and better will be the results. It is important to have ventilation in the rooms being treated; this helps to activate Clear The Air. Typically one application will eliminate all odors; occasionally a second application is necessary.

Coverage:

- One Bag covers 50-100 square feet
- 14 oz canister covers 50-100 square feet
- 1 bucket covers 900 square feet
- 28 oz canister covers 100-175 square feet

Directions to Eliminate Dead Animal & Related Urine/Feces Odor:

(It is not necessary to remove dead carcass to remove the odor • Bag will outlast odor from carcass and handle any urine or feces odors that may exist from the infestation.)

- Remove clear plastic wrap from bag.
- Hang 2-3 bags in each room with odor.
- If you believe carcass is in attic or crawl space, place one bag there also.

Directions to Eliminate Pet Odors:

- Remove feces and excess urine.
- Sprinkle granules on carpet, rugs, (brush into the carpet) tile, linoleum or hardwood floors. Leave down 24 hours, then sweep or vacuum. Clear The Air pulls odor from carpet, padding and sub-floor.
- Sprinkle granules directly on furniture. Leave on 24 hours, then vacuum or shake off. Will not harm upholstery or leather.
- Sprinkle granules on pet bedding or clothes. Leave on 24 hours, and then shake off.
- Add granules to litter box to eliminate odors. Add 1/2 cup each time litter is changed, scooped, or as needed.
- Sprinkle granules on bottom of animal cages. Safe for pets even if consumed.

Directions to Remove New Carpet Odors:

- Sprinkle granules over entire carpet. Brush granules into carpet. Leave down 24 hours and vacuum.
- When granules are down have ventilation in the room such as a window open.
- Also hang 1-3 bags in each room. Bags will last 3-4 months; we recommend you leave the bags up to continue removing new carpet odors.

Directions to Eliminate Cigarette and Cigar Smoke Odors:

- Hang 2- bags in each room that smells like cigarette smoke. Some air circulation is necessary.
- Bag will last 1-2 months, if room is heavily permeated with smoke odor the bag may need to be changed more often at first.
- If odors are particularly strong or room has been smoked in for years sprinkle granules on carpets and furniture. Brush granules into carpet. Leave down 24 hours and vacuum. Odors will be completely eliminated.
- Granules can also be placed in ashtrays and cigarette butt receptacles.

Directions to Eliminate Musty Mildew Odors from your Basement:

- Hang 2-3 bags in basement. Some air circulation is necessary.
- Bags will continue to eliminate musty odors for up to 3 months.
- If odors are strong (or you have had a flood) also sprinkle granules on floor, leave down 24 hours and sweep or vacuum. Odors will be completely eliminated.

Directions to Eliminate Odors from your Car:

- Hang or place one or two bags in car. Leave two windows partially opened for air circulation.
- Do not set bag in direct sun, can be placed under the car seat.
- Sprinkle granules on all upholstery and carpet. Brush granules into carpet. Leave down 24 hours and vacuum. All odors will be completely eliminated. Use 1 canister per car. If heavy smoke odors are present you may need to apply two times.
- Granules can also be placed in ashtrays and cigarette butt receptacles.
- The bags will continue to eliminate new odors for up to 3 months. Some air circulation is necessary.

Directions to Eliminate Odors from your RV:

- Hang one bag in bathroom, and one in kitchen area. Leave windows open for air circulation.
- Do not set bag in direct sun.
- Sprinkle granules on all upholstery and carpet. Brush granules into carpet.
- Use three canisters. Leave down 24 hours and vacuum. All odors will be completely eliminated.
- The bags will continue to eliminate new odors for up to 3 months.
