

HOW EARTH CARE'S CLEAR THE AIR PRODUCTS WORK

Earth Care Products can be used to eliminate odors by simply placing a bag near the odor, or by sprinkling granules over or near the soiled areas. **Earth Care** does not have to come into contact with the odor producer; it will pull the odors from the entire room.

Earth Care Products are negatively charged and odiferous gasses ride on positively charged particles. Because of this negative and positive attraction Earth Care draws in odors like a powerful magnet. The odors are adsorbed and neutralized without any cover ups or fragrances. The molecular structure of **Earth Care** consists of billions of microscopic pores, which gives it a large surface area (exceeding the size of a football field). This enables **Earth Care** to adsorb phenomenal amounts of odors. **Earth Care** does not cover up odors it literally clears the air, leaving the air fresh and clean.

WHY EARTH CARE'S CLEAR THE AIR ODOR ELIMINATORS ARE SAFE TO USE AROUND CHILDREN AND PETS

Earth Care is made from all natural minerals. It is non toxic, non hazardous, non-caustic, and biodegradable. It can safely be used around pets and children. It is safe to sprinkle in your pet's cage; it will not hurt your pet even if eaten. It can be applied directly to your pet's fur; this is excellent if your pet has encountered a skunk, or to get rid of the "doggie" smell.

Many of the odor and pollution control products on the market today act merely as masking agents. This means they add chemicals to the air to cover up odors and actually increase the level of indoor pollutants in the process. **Earth Care**, on the other hand, truly eliminates odors and cleans the air by adsorbing and neutralizing odors. **Earth Care** Products are especially beneficial to those that suffer from chemical sensitivity which can be aggravated by fragrances.

Earth Care is safe for Planet Earth. To dispose of Earth Care simply add to your soil, it is an excellent nitrogen soil amendment.

WHAT OUR CUSTOMERS ARE SAYING

"Our cats had dragged in some critters while we were gone and with the AC turned to 80 degrees one of the dead animals was already decomposing and really stank. I hung up the bags in the offending room and no more stink! Thank you so much for your wonderful product."

Laurie W.

"Just wanted to let you know that we put one of the bags in the basement for the pet and other odors and only 24 hours later the smell was completely gone. All we could smell was fresh air. The bags work GREAT!!! I am so glad we found them."

Karen E.

"My cat urinated on my leather chair. I tried several other products that did not work, but Clear The Air worked very well to get rid of the cat urine smell and saved my leather chair."

Andrea K.

"I used your Odor Removing Granules and I have to say they worked great. I have tried just about everything on the market to get rid of cat urine smell and nothing has worked like your product."

Eileen I.

"It's the only odor control product I've put out there that I've been happy with the next day. I've used it on urine odor and dead rodent odor, and after placing your product the odor was gone the next day."
